Read the text given below and answer the questions that follow:

Once I crept in an oakwood – I was looking for a stag.
I met an old woman there – all knobby stick and rag.
She said: ‘I have your secret here inside my little bag.’
Then she began to cackle and I began to quake.
She opened up her little bag and I came twice awake –
Surrounded by a staring tribe and me tied to a stake.
They said: ‘We are the oak-trees and your own true family.
We are chopped down, we are torn up, you do not blink an eye.
Unless you make a promise now – now you are going to die.’

MAKING OF A STATUE

A Statue is a large sculpture of a person or an animal, made of stone or metal or plaster of paris. The process of making a statue with plaster of paris is stated below. At first plaster of paris is mixed with warm water. Before mixing the paris, a cast of statue is made with wood. Then the mixture is poured in the cast. After that the cast is stored in temperature and humidity controlled rooms for 1-3 days for the mixture to be hardened. When the statue is dried, the cast is carefully removed and the statue is taken out. The dried statue is inspected and is coloured. Finally the statue is ready to display.
