Use the following points:

[introduction – brings rain – prevents soil erosion – decreases air pollution – adds to beauty of nature – conclusion]

Ans:

Importance of Tree plantation

Trees are an important part of our ecosystems. They are home to many different species of animals, birds, reptiles and insects. Trees also provide food to man and herbivorous animals. The roots, stems, leaves, flowers, fruits and seeds are the tree parts that may be edible. Trees are also valuable for their medicinal properties.

Trees are also important because they give out oxygen and also use up carbon-dioxide in the process of carrying out photosynthesis. Trees brings rain and prevents soil erosions. Trees maintain balance in our ecosystems. By cutting trees we destroy our environment. It is very important to save trees. Planting trees helps in increasing the green cover of the Earth, and improve the environment.
